# Linear Inequalities in One Unknown

## Exercise 3

[TSA 2012 – 2022]

- Fill in each of the following boxes with an inequality sign '>' or '<'.
  - $1 \square 5$
  - $6 \square -2$
  - $-3 \square -8$
- Fill in each of the following boxes with an inequality sign '≥' or '≤'.
  - $9 \square 3$
  - $0 \square -1$
  - $-7 \square -5$
- Use an inequality to represent each of the following.
  - The value of  $x$  is greater than 9. \_\_\_\_\_
  - The price ( $\$P$ ) of a keyboard is less than \$150. \_\_\_\_\_
  - The height ( $H$  m) of a door is no less than 2 m. \_\_\_\_\_
  - The volume ( $V$  L) of a bottle is at most 1.5 L. \_\_\_\_\_
  - The number ( $N$ ) of pencil is more than 4. \_\_\_\_\_
  - The perimeter ( $W$  cm) of a rectangle is at least 25 cm. \_\_\_\_\_
- Represent the solutions of each of the following inequalities on a number line.
  - $x \geq 9$
  - $x < -1$
  - $x > 4$
  - $x \leq -2$

### Multiple Choice Questions

[TSA 2016 – 2022]

51. The distance between the points  $A(6, 4)$  and

$B(-6, 9)$  is

- A. 5 units.                      B. 7 units.  
C. 12 units.                     D. 13 units.

52. If the length of the line segment joining  $P(2, 5)$  and  $Q(-4, k)$  is  $(7 - k)$  units, find the value of  $k$ .

- A. -5                                B. -3  
C. 3                                  D. 5

53. Find the area of the shaded region in the figure.

- A. 85 sq. units                  B. 109 sq. units  
C. 144 sq. units                D. 168 sq. units

54. The coordinates of the points  $P$  and  $Q$  are  $(3, -1)$  and  $(-2, 2)$  respectively.  $P$  is translated rightwards by 4 units to  $P'$ .  $Q$  is rotated clockwise about the origin through  $90^\circ$  to  $Q'$ . Find the coordinates of  $P'$  and  $Q'$ .

	<u>Coordinates of <math>P'</math></u>	<u>Coordinates of <math>Q'</math></u>
--	---------------------------------------	---------------------------------------

- |    |            |            |
|----|------------|------------|
| A. | $(-1, -1)$ | $(-2, -2)$ |
| B. | $(7, -1)$  | $(-2, -2)$ |
| C. | $(-1, -1)$ | $(2, 2)$   |
| D. | $(7, -1)$  | $(2, 2)$   |

[Technique used in HKDSE Practice Paper P2 Q25]

55.  $L$  is a straight line passing through  $(-1, 0)$  and parallel to the  $y$ -axis. If a point  $A(3, 6)$  is reflected with respect to  $L$  to  $A'$ , find the coordinates of  $A'$ .

- A.  $(-5, 6)$   
B.  $(-1, 6)$   
C.  $(3, -8)$   
D.  $(3, -1)$

[Technique used in HKDSE 2021 P2 Q23, 2019 P2 Q25]

56. The coordinates of a point  $A$  are  $(1, -2)$ .  $A$  is translated upwards by 5 units to a point  $B$ .  $B$  is then reflected with respect to the  $x$ -axis to a point  $C$ . Find the  $y$ -coordinate of  $C$ .

- A. -3  
B. -1  
C. 1  
D. 3

57.  $C(2, a + 4)$  and  $D(0, a)$  are two points on a straight line  $L$ . The slope of  $L$  is

- A.  $\frac{1}{2}$ .                              B. 2.  
C. -2.                                D.  $-\frac{1}{2}$ .

58. It is given that the slope of a straight line  $L$  is  $\frac{5}{2}$ , and  $L$  passes through  $(-4, 5)$ . Find the  $y$ -intercept of  $L$ .

- A. -4  
B. -2  
C. 10  
D. 15

[Technique used in HKDSE 2012 P2 Q8]

13. A box contains 300 balls. 70% of them are green balls and the rest are blue balls. If 20% of the green balls and 60% of the blue balls are marked with number, what percentage of balls in the box are marked with number?

[Technique used in HKDSE 2020 P1 Q5]

14. There are 6000 visitors to an exhibition today. The number of non-local visitors is 40% more than that of local visitors. Let the number of local visitors be  $x$ .
- (a) Express the number of non-local visitors in terms of  $x$ .
- (b) Find the number of local visitors to the exhibition.

[HKDSE 2014 P2 Q9]

15. The area of a square is 10% larger than the area of a rectangle. The difference in the area of the square and the rectangle is  $5 \text{ cm}^2$ . Find the area of the square.
16. The average temperature of a city was  $25^\circ\text{C}$  yesterday. The average temperature is  $28^\circ\text{C}$  today.
- (a) Find the change in the average temperature over these two days.
- (b) Find the percentage change in the average temperature over these two days.
